## Experience

### Software Engineering Teaching Fellow

Fullstack Academy • 11/21-Present • New York, NY (remote)

- Contributed to the core software engineering curriculum by refactoring React class-based component lessons/workshops into Hooks-based components
- Helped design and lead a two-day workshop on React Hooks
- Gave live coding demos for students on various areas of software engineering fundamentals within the NERP stack
- Provided one-on-one as well as group support to over 40 students
- Directly oversaw the progress and was the point of contact for my learning team of 5 students
- Conducted behavioral and technical interviews with prospective students
- Acted as project manager to multiple SCRUM teams of junior software engineering students to tackle issues and meet deadlines

### Licensed, Registered Pharmacy Technician

Nicklaus Children's Hospital • 06/10-05/20 • Miami, FL

- Implemented new pharmacy department protocol for hospital downtime by creating easily customizable labels for oral medications, IV medications, IV drips, etc. and routing all labels to a centralized printer
- Prepared IV and Oral medications and provided customer support in the form of assisting patients' families as well as nurses and all other healthcare professionals over the phone, via email, as well as Cerner CPOE
- Pharmacy formulary management and confirming, correcting, and manual entry of pharmacy charges for surgical and radiology cases
- Purchased contract compliant medications (when applicable) and pharmacy supplies through Cardinal Health and managed product backorders

### Owner/Freelance Web Designer

Zero Element Web Design • 08/14-04/19 • Miami, FL

- Designed and consulted on WordPress websites

## Projects

### COVID-19 Vaccination Record & Global Case Tracker / Sole Developer

stackathon-vaccine-passport.herokuapp.com/

- Compiled COVID-19 case data from multiple API endpoints and used ChartJS to visually showcase that data both worldwide and by country
- Input user vaccination information into a QR code
- **Tech stack:** React, Node, Express, PostgreSQL, ChartJS

### Attack of the Code / Software Developer

attackofthecode.herokuapp.com/

- Designed and coded landing page along with character cycle and background selections
- Implemented fully functioning in-browser code editor complete with console functionality
- **Tech Stack:** React, Node, Express, Socket.io

## Education

**Fullstack Academy** 07/21 | New York, NY (remote)

26 week full stack JavaScript web development immersive

**American Medical Academy** 09/11 | Miami, FL

EMT-B Program

**Everest Institute** 11/09 | Miami, FL

Pharmacy Technician Program

## Skills

- Node.js
- React
- Redux
- HTML
- CSS
- JavaScript
- GraphQL
- Express
- SQL
- Sequelize
- PostgreSQL
- Microsoft Office
- Google Drive
- English fluency
- Portuguese fluency
